

**SCIENTIFIC REVIEW FORM****I. PUBLICATION**

Title of the article: .....

**II. I HEREBY EVALUATE THE ENCLOSED TEXT AS FOLLOWS (circle one answer):**

1. Fit for publication without any changes (Provide a short justification);
2. The text can be published without any changes but the publication will not constitute a meaningful contribution therefore one should consider whether space should be used for this text (Provide a short justification);
3. Basically acceptable but after some corrections (Indicate which);
4. Not acceptable, requires a considerable revision, which might make the text acceptable or not (Indicate what is wrong and how it can be improved, if possible);
5. The text should be rejected – There are no chances for revision of this text (Indicate why);
6. This text could be published but in another journal (Provide a short justification).

**III. JUSTIFICATION OF THE SELECTED GRADE**
